

**Margery Williams, a former member of BCQG, is downsizing and would like to find just the right person for this item, which is a one of a kind.**

**Carlson Currier Company Silk Thread Cabinet, Circa 1910**  
**Size 61.75" wide/long, 50.5" tall, and 17.25" deep \$2400.00.**

She has had the cabinet for 25+ years. She stored all of her needlework and sewing threads, metallics, silk ribbons, laces, beads and embellishments in it. It is a large piece and is very heavy. All of the spools displayed in the drawer fronts and shown in the photo are included. Many are silk, some are cotton and some silk and silk buttonhole twist. Most of the silks are from Corticelli, and are vintage. She is asking \$2400.00 for the cabinet. All offers welcomed. Shipping arrangements and expense would be the buyers responsibility. It is located at her Daughter's home in La Palma near Buena Park. Please let me know if you have any questions or would like more photos and information.

Thank you for your time and consideration... Create beautiful things daily...
